**Do you have any specific requests regarding your kitten's nature?**

(example – will be used as a therapy cat, must be ok with children etc.)

**Are you interested in attending and showing your kitten?**

**THINGS TO REMEMBER:**

- \*We can never guarantee the size any kitten will grow into; it is individual to the kitten and weight/size as a kitten is no indication of potential growth when fully grown at 4+ years of age.
- \*You are purchasing a pet kitten which means that although we strive to breed the best of the best not all kittens will turn out show quality with perfect ears, muzzle, boning, length of tail etc.
- \*Colouring of the kitten can change as they grow especially torties. Full coat colour and pattern does not fully come in till around 1 year of age.
- \*Before bringing home any kitten or cat it is always a good idea to make sure your house is prepared for your new addition by doing some research on some house hold plants and accessories that can cause harm or health issues for your new kitten such as indoor plants, salt lamps and diffusers.
- \*All our kittens go to indoor only homes, unless they are provided with an outdoor enclosure that is enclosed to keep your kitten contained.
- \*Cats and kittens are carnivores and leave here consuming raw meat as well as quality biscuits. This diet can range from \$20+ per week, per kitten.
- \*Our kittens are looking for homes for the rest of their lives (10+ years) please make sure you are prepared to spend the rest of the kitten's life together.
- \*Maine coons do like to have company with another feline or certain canine friends, they do stop getting up to so much mischief if they have a partner in crime to play with.
